House of the Month: 4300 Armstrong Parkway

June 20, 2019 Staff Report

This is an opportunity 80 years in the making — one of the finest homes in Highland Park on one of the most coveted corners in town.

On a property in the same family since 1939 is sited this iconic Italian Renaissance villa, designed by Richard Drummond Davis and built by [Sebastian Construction Group](#). It gets no finer than this: nearly 12,000 square feet of sophisticated luxuries, including four bedrooms, five full baths, guest or staff quarters, a large chef's kitchen, a bookshelf-lined paneled library, a grand entry hall, and multiple living areas. The workmanship is beyond compare, with detailed millwork, elegant finishes, and superb fittings. The heavily-treed grounds offer 1.6 acres of lush landscaping, a sparkling pool, and a charming pool house — perfect extensions to the exquisite living and entertaining areas of the home. It is a grand yet comfortable setting for a grand yet casual life.
